

Sun protection policy

Children at Kidsize Before and After School Club will have the opportunity to play in the fresh air throughout the year. Therefore, in the summer months it is important that all children have sun cream applied before they go outdoors. It is to the discretion of the manager/senior as to when sun cream needs to be applied. It is the policy of Kidsize to gain parent/carer permission before applying sun cream to a child by means of a consent form. Staff are aware that;

- Parents/Carers must be given a sun cream consent form to sign to allow the use of club sun screen. (factor 30+)
- If a Parent/Carer does not sign a form, then the child must be kept inside until the after-school club can contact the parents to gain permission. If a Parent/Carer does not want a child to have sun cream applied, then the Parent/Carer must supply cool clothing that covers arms and legs. If a parent/carer feels that their child does not require sun cream, please provide this in writing with your signature so this can be added to your child's file.
- If your child has sensitive skin and requires their own sun cream, please provide this in their school bag. It must be labelled with the child's name and date of opening.
- Children will be encouraged to apply their own sun cream, but staff are available to help when necessary.
- A fresh pair of gloves must be worn when applying sun cream to each individual child.
- Parents/Carers will be encouraged to bring in a sun hat for their child.
- Fresh water will be available to the children throughout their time at the club and on outings.
